

This Week

The median list price in CANBY, OR this week is \$259,900.

Inventory has been tightening and days-on-market increasing recently. The Market Action Index has been basically flat, not providing strong indication for market conditions.

Supply and Demand

- Inventory levels have been relatively consistent relative to sales. Despite the fact that there is a relatively high amount of available inventory, this Buyer's market is still seeing prices move higher. Given inventory levels, these price conditions are relatively fragile. If the market cools off further, the price trend is likely to reverse.

Market Action Index

The Market Action Index answers the question "How's the Market?" by measuring the current rate of sale versus the amount of the inventory. Index above 30 implies Seller's Market conditions. Below 30, conditions favor the buyer.
